SANKA SATYANARAYANA

Computer Science & Engineering Student | SQL & Full Stack Developer
Vizianagaram, Andhra Pradesh | +91 8143754990 | satyanarayana.sanka555@gmail.com | github.com/SATYANARAYANA21

OBJECTIVE

Final-year Computer Science and Engineering student (2027 batch) seeking a Functional Consultant role. Strong in SQL and database concepts, with hands-on experience building and testing end-to-end e-commerce and web applications. Skilled in analyzing requirements, preparing test scenarios, and collaborating in agile teams to deliver reliable, user-focused solutions.

TECHNICAL SKILLS

Databases: SQL,Relational Database Concepts, Data Querying
Programming Languages: Python, JavaScript, TypeScript
Web Technologies: HTML, CSS, Node.js, Express.js, React, Next.js, REST APIs
Testing & Quality: Test Scenario Design, Automated Testing, Input Validation, Requirement Analysis
Tools & Platforms: Git, GitHub, Docker, Railway, Vercel, VS Code, Figma
Core Competencies: Data Structures, Problem Solving, Object-Oriented Programming, Agile Collaboration

EDUCATION

B.Tech, Computer Science and Engineering — Raghu Engineering College **Expected 2027**

Higher Secondary Education (MPC) — Kalam's Junior College, 86.4% **2021 – 2023**

Secondary School Education (SSC) — Geethanjali High School, 98.3% **2020 – 2021**

PROJECTS

Yunetra — A Vision That Unites Potential (GitHub) **2025**

- Designed and developed a peer-to-peer learning platform enabling students to teach, learn, and share educational resources within a collaborative community.
- Implemented core resource-sharing and peer-interaction features with an intuitive, accessible user experience for learners across skill levels.

NetGuard AI — Predictive Cyber Defense, Smart India Hackathon 2026 (GitHub) **2026**

- Built a predictive cyber-defense system for Security Operations Centers that ingests PCAP and network-flow telemetry to forecast likely attacker moves, using Python, PyTorch, and PyTorch Geometric.
- Combined a Temporal Transformer with a GraphSAGE graph neural network, benchmarked against a logistic-regression baseline on CTU-13 scenarios, and delivered a Streamlit SOC dashboard with a live demo.

SATYA — Full-Stack E-Commerce Platform (GitHub) **2026**

- Built and deployed a full-stack e-commerce platform with product search, category filtering, authentication, wishlist, cart management, and responsive UI using HTML5, CSS3, JavaScript, Node.js, and Express.js.
- Developed a SQLite-backed data layer and integrated OpenWeatherMap, OMDb, ZenQuotes, and Random User APIs for interactive, data-driven features.
- Implemented bcrypt authentication, session management, input validation, automated testing, Git/GitHub workflows, and Railway deployment for a production-ready application.

PROFESSIONAL EXPERIENCE

AI-ML Virtual Internship — AWS Academy **2025 – Jun 2025**

- Completed structured AI and Machine Learning modules using AWS cloud tools, gaining hands-on exposure to applied ML workflows.

Web Development Intern — Oasis Infobyte **Oct 2024 – Nov 2024**

- Built and deployed a responsive landing page, portfolio site, and temperature converter application using HTML and CSS.

Graphic Design Intern — Code Alpha **Nov 2024**

- Designed posters, logos, and business cards for client-style briefs using Canva and Adobe tools.

CERTIFICATIONS

- Kaggle — Python / SQL Certifications
- Tata Forage — GenAI Powered Data Analytics & Data Visualisation Job Simulation
- AWS Academy Graduate — Cloud Foundations
- AWS AI-ML Virtual Internship — EduSkills
- TCS iON Career Edge — Young Professional
